

CAMPAIGN DETAILS

Product: Beard Growing Kit

Brand: Barbarossa Brothers

Funnel Stage: Cold Traffic / Problem-Aware Audience

Ad Type: Native UGC Ad → problem/solution hook + mechanism

CONCEPT SUMMARY

This concept attacks one of the biggest limiting beliefs in the beard category: that patchy beard growth is purely genetic. The ad uses an educational but highly native TikTok-style approach to reframe beard growth as a stimulation and circulation issue instead of a DNA issue. The table focuses on simple science-backed explanations, visual mechanism demonstrations, and realistic transformation proof to create curiosity, belief shifts, and stronger conversion intent while positioning the beard kit as the logical solution.

SCRIPT TABLE

Time	Visual	Dialogue / VO	On-Screen Text	Editing Notes
0:00 - 0:03	Tight selfie shot in bathroom mirror. Creator points to the patchy beard area under harsh lighting.	"Your dad's beard has NOTHING to do with yours. Let me explain."	"The genetics lie:"	Immediate zoom-in punch on "NOTHING." Fast subtitle animation.

0:03 - 0:06	Cut to a side-by-side photo of the creator's old patchy beard vs fuller current beard.	"Most guys think patchy beards are permanent."	"Most men believe this."	Slight camera shake effect for a native feel.
0:06 - 0:10	Creator speaking while brushing beard in the mirror. Calm/confident tone.	"But most of the time... your follicles aren't dead. They're just under-stimulated."	"Dormant ≠ dead"	Slow push-in edit. Keep the pacing deliberate.
0:10 - 0:14	Macro close-up of beard roller moving across a patchy area. Natural bathroom lighting.	"That's why random beard oils usually do nothing."	"Topicals alone usually fail."	Add subtle rolling ASMR sound.
0:14 - 0:18	Overlay animation showing skin + follicles + circulation stimulation while the creator rolls the beard.	"Because if the follicles aren't activated... the ingredients barely reach the area."	"Poor circulation = weak growth"	Minimal educational overlay. Native, not overproduced.
0:18 - 0:23	The creator applies serum after rolling. Tight texture shots.	"Microneedling increases blood flow... then the serum actually absorbs properly."	"Stimulate → absorb → grow"	Fast jump cuts between rolling + serum application.
0:23 - 0:27	Before/after beard progression clips. Day 1 vs Day 30 overlays.	"This is the first routine that made me realize my genetics weren't actually the issue."	"Day 1 → Day 30."	Add a subtle ticking sound transition between days.
0:27 - 0:31	Creator outdoors in natural lighting, touching beard confidently.	"My beard filled in, looked thicker, and honestly... I stopped	"Looks fuller. Feels better."	Slightly warmer lighting here for emotional payoff.

		obsessing over patches.”		
0:31 - 0:36	Creator holding kit casually near sink. Not product-centered.	“And no... this isn’t overnight. But if you stay consistent, you’ll notice the difference.”	“Consistency matters.”	Tone becomes more grounded and believable.
0:36 - 0:42	Final mirror shot. Creator smirks confidently while fixing his beard shape.	“Try it for 30 days and prove your genetics wrong. Link below.”	“Prove your genetics wrong.”	End with a quick beard close-up + CTA pulse animation.

META AD COPY

Primary Text:

A lot of guys start this because they’re frustrated with patchy areas or slow growth.

One of the most common things people mention is that their beard starts looking fuller and thicker after consistent use.

The system combines microneedling + serum application to support better absorption and stimulation.

Over 1,000+ customers have tried it, and it comes with a 30-day risk-free trial.
