

LED FACE MASK

CONCEPT SUMMARY

This high-velocity script hooks cold traffic within the first second using a rapid visual "Before/After" transformation. It systematically removes friction by contrasting an overwhelming, expensive "8-step legacy routine" against a simple, 10-minute at-home ritual. The core marketing angle leverages Price Arbitrage: it reframes the \$109 retail cost as an immediate money-saving solution by directly contrasting it against the heavy, recurring monthly expenses of traditional serums and facials.

Video Script Table

Time & Segment	Audio Script (Voiceover Copy)	Visuals & Text Overlays (TOS)
0:00 - 0:03 (Visual Hook)	"I went from THIS... (before appears) ...to THIS." (after appears)	• Visual: FLASH before (0.3 sec) → HARD CUT after (0.7 sec). Same angle. Same lighting. Immediate visual contrast. • Text on Screen: BEFORE → AFTER • Editing Notes: No intro. No silence. No logo. Start talking frame one. Add impact sound exactly on the reveal.
0:03 - 0:08 (Friction Contrast)	"And it didn't take an 8-step routine, more serum, or expensive facials."	• Visual: Split screen stays visible. Creator steps into frame beside the split screen or holds up the device. Fast transition. • Text on Screen: No 8-Step Routine • No Extra Serums • No Facials

		• Editing Notes: Fast pacing. Use clean checkmarks or cross marks next to text elements if possible.
0:08 - 0:15 (The Ritual Reframe)	"I just built this 10-minute at-home LED mask into my nightly routine for just 4 weeks."	• Visual: Creator holding the LUMÉ mask natively, putting it on. The mask lights up (Blue/Red). Clean shot. • Text on Screen: 10-Minute Routine • At Home • Editing Notes: Warm up the background music track slightly. Transition from hook to mechanism.
0:15 - 0:22 (The Physical Barrier)	"Unlike topicals that just sit on top of your skin, the light actually penetrates deeper layers."	• Visual: Close-up shots of the lights on skin, demonstrating how it wraps around the jawline/face cleanly. • Text on Screen: Penetrates Deeper Layers • Editing Notes: Use clear depth animation or side text. Keep the delivery clear and informative.
0:22 - 0:28 (The Spectrum Benefit)	"Different light modes target different things — breakouts, redness, uneven skin, all at the same time."	• Visual: Creator cycles through a couple of light modes or flashes quickly across Red/Blue. • Text on Screen: Acne • Redness • Glow • Editing Notes: Keep the mechanism simple. Outcome-focused.
0:28 - 0:33 (Curiosity Pivot)	"And this is the part that annoyed me..."	• Visual: Creator removes mask → tight skin close-up → slow cheek turn in natural light. • Text on Screen: — • Editing Notes: Curiosity reset before economics.
0:33 - 0:42 (Price Arbitrage)	"It's \$109... which is literally HALF of what I was spending every month trying to fix my skin."	• Visual: Clean product shot → creator holding mask → quick lifestyle clips. • Text on Screen: \$109 • Half What I Was Spending • Editing Notes: This is your DR money line. Let it breathe.
0:42 - 0:50 (Social Proof Momentum)	"Turns out I wasn't late to this - over 5,000 women already made LUMÉ part of their routine and swear by it."	• Visual: Fast montage: customer videos → review screenshots → women showing skin → product shots. • Text on Screen: 5,000+ Happy Customers • Editing Notes: Use real numbers only. Keep the montage moving.

0:50 - 0:58 (Risk De-risking)	“Which honestly made trying it easy because if I used it and didn't love it, I had 30 days to send it back.”	• Visual: Product stays visible. Guarantee appears while the creator talks naturally. • Text on Screen: 30-Day Money-Back Guarantee • Editing Notes: Guarantee = confidence signal, not desperation.
0:58 - 1:10 (The Direct Push Close)	“If you're tired of buying skincare and still looking in the mirror wondering why nothing's changing... click below and get your LUMÉ LED Glow Mask.”	• Visual: Quick before → after flash. Creator directs eye contact. Product in hand. Clean ending frame. • Text on Screen: Get Your LUMÉ LED Glow Mask • Shop Now → • Editing Notes: Strong final CTA push. Hold the end card for 2-3 seconds with clear button placement.

META AD COPY BLOCKS

Primary Text:

You don't need another serum. You don't need another facial. You just need 10 minutes and the right light.

Most women spend \$200+ a month on skincare that sits on top of their skin and does absolutely nothing underneath.

That's the problem.

Creams and serums can't reach where the skin actually repairs itself.

LUMÉ's LED Glow Mask uses clinically proven red and blue light wavelengths that penetrate deep into the skin layers, targeting breakouts, redness, and dullness all at once.

All of those benefits without a dermatologist appointment.

Just put it on, let it work, take it off.

Over 5,000 women have already made it part of their nightly routine.

Try it risk-free for 30 days.
