

Hair Growth Gummies

CAMPAIGN CONTEXT

This direct-response script establishes immediate scientific trust by leveraging an 8-year medical authority angle. By reframing hair loss from an external symptom to an internal nutritional problem, it utilizes clean 3D mechanism animations and a cross-examination of traditional biotin pills to build logical value, converting cold audiences through clinical proof and a complete 100-day risk reversal.

Video Script Table

Time & Segment	Audio Script (Voiceover Copy)	Visuals & Text Overlays (TOS)
0:00 - 0:04 (Authority Hook)	"I have spent over 8 years helping women fix their hair loss..."	• Visual: Medium shot, static angle. A woman dressed professionally, in a white coat or a clean blazer, standing in front of a bright modern bathroom or clinical setting. She speaks directly to the camera with calm confidence. Pacing is crisp and deliberate. • Text on Screen: Solid white rounded rectangle with dark text reads "I have spent over 8 years."
0:04 - 0:07 (Problem Tease)	"...and most women do not realize this one thing..."	• Visual: Rapid cut to extreme close-up top-down shot of a shower drain completely filled with tangled hair. The camera is perfectly still.

		Completely silent beat. Forces the viewer to sit with the discomfort of recognizing their own bathroom. • Text on Screen: "Most women do not realize this one thing."
0:07 - 0:11 (Shock Statistic)	"...losing 50% of your hair before you even notice it is gone."	• Visual: Fast cut to an extreme close-up of a woman's part line. Camera level with the scalp, showing visible scalp between thin strands. A finger slowly traces the part line. Uncomfortable and real. • Text on Screen: "losing 50% of your hair before you even notice."
0:11 - 0:15 (Emotional Reality)	"...and by the time you see it in the mirror, the damage is already done."	• Visual: Cut to a medium close-up of a woman standing at her bathroom mirror, pulling her hair back with both hands and staring at her hairline with a defeated expression. No product. No solution. Just her and the mirror. • Text on Screen: "By the time you see it, the damage is already done."
0:15 - 0:19 (Core Reframing)	"The real problem is not what is on your hair, but the missing nutrients inside your body."	• Visual: Sharp cut back to the professional woman speaking directly to the camera. She gestures lightly with one hand. Calm, warm, trustworthy. This reframes the entire problem from external to internal. • Text on Screen: "The real problem is not what is on your hair."
0:19 - 0:23 (Mechanism Intro)	"Your hair follicles need a very specific nutritional environment to grow."	• Visual: Cut to a clean 3D animation on a dark background. A glowing cross-section of a hair follicle sits at the base of a strand. The follicle pulses slightly, indicating it is alive but starved. Small grey particles drift past it without absorbing. • Text on Screen: "Your hair follicles need a specific nutritional environment."
0:23 - 0:28 (Follicle Shrinkage)	"Without it, the follicle shrinks. The strand thins. And eventually the hair stops coming back."	• Visual: The 3D animation continues. The follicle visibly compresses and dims. The hair strand above it narrows dramatically, then snaps. A subtle red glow replaces the healthy teal one. The visual is simple, clinical, and deeply unsettling.

		Text on Screen: "The follicle shrinks. The strand thins."
0:28 - 0:32 (Contrast Multiplier)	"Most women spend years putting things ON their hair, when the answer was always inside."	- Visual: Fast cut to a bathroom shelf overloaded with hair oils, shampoos, serums, and masks. A hand sweeps across them dismissively. Then instant cut back to the professional woman shaking her head slowly. - Text on Screen: "most women put things ON their hair."
0:32 - 0:36 (Competitor Filter)	"Biotin alone does not fix this. I have seen thousands of women try it with no results."	- Visual: Close-up of a generic plain white biotin pill bottle being held up, then set aside. The professional woman reappears briefly, pointing at the camera to drive the point home. A subtle red X graphic overlays the biotin bottle. - Text on Screen: "biotin alone does not fix this."
0:36 - 0:41 (Authority Build)	"And I kept seeing the same pattern over and over. One ingredient alone was never enough."	- Visual: Cut back to the professional woman leaning slightly forward toward the camera, eyes direct, voice firm but caring. She holds up her fingers to count invisible points. Behind her, soft clinical lighting. - Text on Screen: "hair loss is never a single ingredient problem."
0:41 - 0:44 (The System Pivot)	"And to fix this, we created a complete internal hair system."	- Visual: Clean transition to a professionally lit flat-lay shot. The SugarbearPRO bottle sits centered on a white surface. The camera slowly pushes in from above. Warm teal lighting. The bottle looks premium and intentional. - Text on Screen: "We created a complete internal hair system."
0:44 - 0:48 (Product Reveal)	"SugarbearPRO with SmartRoot Complex."	- Visual: High-angle close-up of a hand placing the SugarbearPRO bottle down onto a clean white counter. The teal label and bear logo are perfectly visible. One single blue bear gummy is placed beside it. A user review graphic floats in from the right, showing five stars and the text "I wish I started sooner." - Text on Screen: "SugarbearPRO with SmartRoot Complex."

0:48 - 0:52 (Science Step 1)	"6000mcg of Biotin feeds the follicle directly from the inside..."	• Visual: Cut to the 3D follicle animation returning. This time, glowing particles labeled "Biotin 6000mcg" flow down and absorb into the follicle. It begins to glow teal. The strand above it visibly thickens. • Text on Screen: A pill-shaped badge slides in reading "Pharmacist Formulated." "6000mcg Biotin feeds the follicle directly."
0:52 - 0:57 (Science Step 2)	"...while MSM strengthens the strand, Zinc repairs the scalp, and Inositol supports every cell at the root level."	• Visual: The animation expands. Three separate streams of particles labeled "MSM," "Zinc," and "Inositol" flow in from different directions and wrap around the follicle like a shield. The follicle now pulses strongly and brightly. • Text on Screen: A second badge slides in underneath reading "Third Party Lab Tested." "MSM. Zinc. Inositol. All at the root level."
0:57 - 1:01 (Completeness Stack)	"13 total actives. All working together as one system."	• Visual: Cut to overhead flat-lay. SugarbearPRO bottle centered. Small teal cards arranged in a circle around it, each showing one ingredient name. The camera slowly pushes in. Bold text overlay appears in center: "13 Total Actives." The visual communicates completeness and intention. • Text on Screen: "13 total actives working as one system."
1:01 - 1:05 (Objection Filter)	"And unlike biotin pills that pass through your body doing almost nothing..."	• Visual: Fast cut back to the professional woman. She holds up the generic biotin bottle in her left hand and the SugarbearPRO bottle in her right. She sets the biotin down and keeps SugarbearPRO elevated. Clean, visual, wordless comparison. • Text on Screen: "unlike biotin pills that do almost nothing."
1:05 - 1:10 (Superiority Output)	"...SugarbearPRO delivers everything your follicles need to stop shedding and start growing."	• Visual: Slow push-in on the SugarbearPRO label. The camera focuses on the text "90% Saw Positive Hair Results" printed on the label itself. The label does the selling. No graphics needed. The review badge remains on screen. • Text on Screen: "stop shedding and start growing."

1:10 - 1:13 (Shedding Use-Case)	"It works for excessive shedding..."	• Visual: Extreme close-up of a shower drain with barely any hair in it. A hand points to the nearly clean drain with visible surprise. Expression of relief. One second. Fast cut. • Text on Screen: A green checkmark graphic slides in from the right: "Stops Excessive Shedding." "It works for excessive shedding."
1:13 - 1:16 (Weakness Use-Case)	"...thin weak hair..."	• Visual: Close-up of a ponytail being held up, visibly thick and full, a measuring tape loosely wrapped around it showing real circumference. • Text on Screen: Second checkmark stacks: "Thicker Fuller Hair." "thin weak hair."
1:16 - 1:19 (Growth Use-Case)	"...slow growth..."	• Visual: Close-up of a woman's hairline. A finger gently touches new baby hairs visibly sprouting along the hairline. The skin around them is healthy. Third checkmark stacks: "New Hair Growth." • Text on Screen: "slow growth."
1:19 - 1:23 (Surprise Benefit)	"...and even makes your nails stronger as a bonus."	• Visual: Cut to a woman holding her hand up to the camera, showing strong, healthy nails. She looks genuinely surprised and amused. This moment must feel completely unscripted. • Text on Screen: Fourth checkmark stacks: "Stronger Nails." "stronger nails as a bonus."
1:23 - 1:28 (Friction Elimination)	"All of this without a complicated routine, prescription, or a doctor visit. One gummy. Every day. That is it."	• Visual: Cut to a woman's hand dropping one single blue bear gummy onto her palm beside her morning coffee. Extreme close-up. Simple, effortless. The professional woman reappears briefly, nodding in confirmation. • Text on Screen: "one gummy every morning. That is it."
1:28 - 1:32 (Clinical Social Proof)	"And my patients started noticing results in as little as 2 weeks. The drain test never lies."	• Visual: Cut to a before-and-after of two drain shots side by side. Left: drain covered in hair. Right: nearly empty drain. Bold text overlay between them: "2 Weeks." The professional woman reappears, pointing at the camera with quiet certainty. • Text on Screen: "The drain test never lies."

1:32 - 1:36 (Avalanche Grid)	"And here is what women are saying after just a few weeks..."	• Visual: Sudden high energy cut to a 3x3 grid of 9 different women simultaneously. Mix of ages, including at least two women visibly over 50. Each woman is either holding the SugarbearPRO bottle, running her hands through visibly fuller hair, or showing a before-and-after on their phone. • Text on Screen: Large bold text overlay centered: "50,000 Customers" with five animated gold stars popping onto screen one by one. "Here is what women are saying."
1:36 - 1:40 (Authority Stack)	"4.9 stars. 50,000 customers. And a 100-day money-back guarantee."	• Visual: Grid fades to a clean white frame. Three trust badges appear one by one with subtle bounce animations. First: five gold stars with "4.9 Rating." Second: a shield icon with "100 Day Money Back Guarantee." Third: a teal checkmark with "Vegan and Halal Certified." Voiceover is calm, confident, unhurried. • Text on Screen: "4.9 stars. 50,000 customers."
1:40 - 1:45 (Risk Reversal Close)	"If SugarbearPRO does not visibly reduce your shedding and give you thicker, stronger hair within 100 days, you pay nothing."	• Visual: Cut back to the professional woman for her final authority statement. She looks directly into the lens, completely still, completely confident. One hand holds the SugarbearPRO bottle at chest height. • Text on Screen: "If it does not work, you pay nothing."
1:45 - 1:50 (Montage Recapitulation)	"So if you are losing hair in the shower, noticing your ponytail getting thinner, or just want your hair back..."	• Visual: Lightning-fast montage. Cut 1: hair-covered drain. Cut 2: thin ponytail. Cut 3: woman looking at her hairline in the mirror with concern. Cut 4: hand running through hair with strands coming out. Each cut is under one second. Raw and real. • Text on Screen: "losing hair in the shower. ponytail getting thinner."
1:50 - 1:55 (Call To Action)	"...tap below and start your hair transformation today."	• Visual: Cut back to the professional woman for final sign-off. She gestures downward toward where the shop button appears on the ad platform. Warm smile. Confident nod. Text Overlay: A clean high-contrast banner slides up from the bottom of the frame with bold white text on a teal

		background reading "100 Day Risk-Free — Start Today." • Text on Screen: "Tap below and start your transformation today."
1:55 - 1:58 (Final Retention Frame)	"You will be shocked at how fast your hair responds when you finally give it what it actually needs."	• Visual: The professional woman holds the frame for two full seconds after speaking, smiling directly at the camera. The SugarbearPRO bottle remains visible in her hand. The trust badges stay on screen. The video ends on this frame abruptly and intentionally to drive the click. • Text on Screen: "shocked at how fast your hair responds."
