

Beard Growth Kit

CONCEPT SUMMARY

This performance-driven script targets cold traffic by disproving a massive consumer myth: that beard patches are permanently determined by bad genetics. By breaking down the biological mechanism of under-stimulated follicles, the script pairs realistic microneedling visual cues with deep topical oil comparison. This establishes a flawless dual-action routine that minimizes friction and drives sales via a secure 30-day risk reversal.

Video Script Table

Time & Segment	Audio Script (Voiceover Copy)	Visuals & Text Overlays (TOS)
0:00 - 0:03 (The Pattern Hook)	"Your dad's beard has NOTHING to do with yours. Let me explain."	• Visual: Tight selfie shot in bathroom mirror. Creator points to the patchy beard area under harsh lighting. Immediate zoom-in punch on "NOTHING." • Text on Screen: "The genetics lie:" • Editing Notes: Fast subtitle animation.
0:03 - 0:06 (Problem Phase)	"Most guys think patchy beards are permanent."	• Visual: Cut to a side-by-side photo of the creator's old patchy beard vs fuller current beard. • Text on Screen: "Most men believe this." • Editing Notes: Slight camera shake effect for a native feel.

0:06 - 0:10 (Dormancy Reframe)	"But most of the time... your follicles aren't dead. They're just under-stimulated."	• Visual: Creator speaking while brushing beard in the mirror. Calm/confident tone. • Text on Screen: "Dormant ≠ Dead" • Editing Notes: Slow push-in edit. Keep the pacing deliberate.
0:10 - 0:13 (Topical Contrast)	"That's why random beard oils usually do nothing."	• Visual: Macro close-up of beard roller moving across a patchy area. Natural bathroom lighting. • Text on Screen: "Topicals alone usually fail." • Editing Notes: Add subtle rolling ASMR sound.
0:13 - 0:21 (Mechanism Pain)	"Because if the follicles aren't activated... the ingredients barely reach the area. And that's exactly what most products on the market do. They just sit on top of your skin looking greasy, doing absolutely nothing for your actual follicles."	• Visual: Overlay animation showing skin layers and follicles with no circulation while the creator holds a generic oil bottle. • Text on Screen: "Poor circulation = zero results." • Editing Notes: Split the line into two fast subtitle punches. Slightly sped-up delivery.
0:21 - 0:31 (The Solution Core)	"However... what actually works is microneedling first. The tiny needles create micro-channels in the skin, which trigger blood flow directly to the follicles. Then, when you apply the serum, it goes deep, where the follicles actually live. That's what wakes them up."	• Visual: Overlay animation showing micro-channels opening in the skin + blood flow rushing to follicles. Then, a tight shot of serum is applied right after rolling. • Text on Screen: "Stimulate → absorb → grow." • Editing Notes: Fast jump cuts between rolling and serum application. Keep delivery punchy and quick.
0:31 - 0:35 (Proof Phase)	"This is the first routine that made me realize my genetics weren't actually the issue."	• Visual: Before/after beard progression clips. Day 1 vs Day 30 overlays. • Text on Screen: "Day 1 → Day 30." • Editing Notes: Add a subtle ticking sound transition between days.
0:35 - 0:40 (Emotional Payoff)	"My beard filled in, looked thicker, and honestly... I stopped obsessing over patches."	• Visual: Creator outdoors in natural lighting, touching beard confidently. • Text on Screen: "Looks fuller. Feels better." • Editing Notes: Slightly warmer lighting here for emotional payoff.

0:40 - 0:44 (Friction Removal)	"And the best part? Just 10 minutes a day. That's it."	• Visual: Creator holding kit casually near sink. Not product-centered. • Text on Screen: "10 mins. That's it." • Editing Notes: Tone becomes more grounded and believable. Slow it down slightly here.
0:44 - 0:48 (Urgent Call To Action)	"Click below and get the full beard you should've had years ago."	• Visual: Final mirror shot. Creator smirks confidently while fixing his beard shape. • Text on Screen: "Prove your genetics wrong." • Editing Notes: End with a quick beard close-up + CTA pulse animation.

META AD COPY BLOCKS

Primary Text:

A lot of guys start this because they're frustrated with patchy areas or slow growth.

One of the most common things people mention is that their beard starts looking fuller and thicker after consistent use.

The system combines microneedling + serum application to support better absorption and stimulation.

Over 1,000+ customers have tried it, and it comes with a 30-day risk-free trial.
