

YOUTUBE ADS CREATIVE

CAMPAIGN CONTEXT

Campaign Type: Cold Traffic VSL (Video Sales Letter) targeting high-output remote workers, corporate professionals, and entrepreneurs.

Core Strategy: Hooks viewers in the first 5 seconds by confronting afternoon fatigue and coffee reliance, using the Problem-Agitation-Solution (PAS) framework. It positions Onnit's Alpha Brain as the natural mechanism for sustained focus, concluding with an aggressive 90-day risk-reversal CTA to maximize cold-traffic conversions.

YouTube Video Ad Script

Time & Segment	Visual Direction (On-Screen Action)	Audio Script (Voiceover Copy)
0:00 - 0:05 (The 5s Hook)	Fast visual cut: A remote marketer sits frozen at a MacBook Pro at 3:00 PM, rubbing their temples in intense exhaustion while a Slack notification channel chimes mockingly. Text overlay flashes in bold, aggressive typography: 'DITCH THE CAFFEINE SPURTS.'	Voiceover (Direct, pattern-interrupt execution): "If it's past 3:00 PM and you're already slamming down an energy drink just to survive another round of revisions... stop right there."

0:05 - 0:15 (Agitation)	Close-up high-contrast shot of artificial energy liquids pouring into glasses. Transition to a stark graphic interface, line tracking an artificial energy spike that sharply drops completely down into a 'cognitive crash zone'.	Voiceover (Empathetic but authoritative analysis): "More synthetic caffeine isn't fixing your processing speed. It's just spiking your cortisol, giving you the jitters, and setting you up for a brutal brain-fog crash in an hour. Your system isn't short on stimulants, but low on baseline alpha-wave support."
0:15 - 0:30 (Solution & Mechanism)	Smooth, cinematic transition. A clean bottle of Onnit Alpha Brain is placed next to the user's laptop. Cut to a sharp, explanatory macro visual demonstrating natural herbal nutrient absorption like L-Tyrosine and Bacopa Monnieri.	Voiceover (Confident, scientific solution presentation): "That's why high-output creators run on Alpha Brain. Instead of relying on cheap artificial stimulants, this premium blend uses direct Earth-grown nutrients like L-Theanine and L-Tyrosine. It safely crosses the blood-brain barrier to assist your body's natural production of alpha waves for steady, distraction-free execution without the jittery crashes."
0:30 - 0:42 (Social Proof)	Fast-paced native split-screen layout showcasing authentic, smartphone-style selfie review videos of real creators and founders speaking effortlessly at their desks. Text overlay reads: 'Over 1 Million Bottles Sold.'	Voiceover (Consolidating global trust signals): "Over a million high-performing professionals, remote workers, and entrepreneurs rely on Onnit daily to optimize clear focus and step straight into deep execution blocks. Try it completely risk-free for 90 days. If your daily clarity doesn't surge, you get a full refund."
0:42 - 0:50 (Urgent CTA)	An animated blue arrow points down directly toward the live link overlay box in the bottom corner. The closing frame displays the signature Alpha Brain bottle	Voiceover (Direct behavioral trigger): "Click the link directly on your screen right now to head straight to the Onnit Official Store. Claim your risk-free supply,

	resting next to a bold 'Keep What You Use Guarantee' banner.	bypass the mid-day slumps, and unlock your cognitive ceiling today."
