

Fadel El Hachimi

DTC CREATIVE STRATEGIST

SUMMARY

I am a DTC creative strategist with a DR copywriting background. I focused on helping ecommerce brands turn market intelligence, customer psychology, competitor patterns, and product positioning into testable performance creative. Strong in research, angle development, hooks, scripts, static ads, UGC briefs, advertorials, listicles, VSL copy, AI-powered production, and performance-driven iteration.

EXPERIENCE

DTC Creative Strategy

Self-Employed | 2025 - Present

- Develop research-backed creative concepts for DTC brands across paid social, direct response, video scripts, static ads, advertorials, listicles, Google Ads, and YouTube Ads.
- Turn customer psychology, competitor patterns, product positioning, buying triggers, objections, and emotional drivers into clear hooks, angles, scripts, and creative direction.
- Create Meta/TikTok ad concepts, UGC concepts, AI UGC concepts, landing-page-style messaging, and native paid media assets designed for faster testing and iteration.
- Develop creative hypotheses around what to test next based on market patterns, messaging gaps, competitor creative, customer objections, and performance signals.

Freelance Direct Response Copywriter

Self-Employed | 2024 - 2025

- Worked with creator-led personal brands, coaches, and online education businesses, including Amy Landino, The Gem Goddess, and other personal brands.
- Supported direct response campaigns across email copy, email design/list communication, landing pages, VSL scripts, promotional messaging, launch assets, and audience monetization.
- Wrote conversion-focused copy around hooks, offer positioning, objections, emotional buying triggers, CTAs, story flow, and clear audience-to-offer messaging.
- Helped structure promotional assets for personal brands selling content, coaching, education, and digital offers.

CREATIVE OPERATING SYSTEM

- **Research:** Identify what customers actually care about by studying reviews, competitor ads, awareness levels, objections, buying triggers, emotional drivers, and market patterns.
- **Strategy:** Turn research into stronger positioning, sharper angles, scroll-stopping hooks, clear narratives, and creative hypotheses that give teams better ideas to test.
- **Execution:** Create scripts, static ad concepts, UGC concepts, advertorial/listicle angles, landing-page-style messaging, and AI-powered creative assets that can move quickly into production.
- **Iteration:** Review creative patterns, performance signals, messaging gaps, and feedback loops to understand what to improve, what to cut, and what to test next.
- **Creative Collaboration:** Work with media buyers, video editors, designers, UGC creators, content creators, founders, and creative leads to turn strategy into clear briefs, stronger assets, and a smoother creative pipeline for the brand.
